

As a retired member of the Armed Forces, I have been assigned in a multitude of locations across the United States; as a Christian, I have looked for Christian-based music in the locations in which I have been stationed in addition to searching for such along my vehicular travels.

I discovered the K-LOVE Christian radio network back in 1990 while stationed in Seattle Washington. I believe time has shown that many independent Christian radio stations lack the ability to service, let alone, attract new listeners.

My family moved to Phoenix Arizona upon my retirement and began providing financial support to the K-LOVE at that time. We financially support the network because we believe it provides a strong, moral-based option that is lacking in most of the other FM stations in our area.

We believe that having a Christian-based national network is a worthwhile service to the residents of our valley as well as those who travel through. Most of us find times in our lives when a spiritual uplift can make a difference and K-LOVE provides a service to those in need.

It would be unfortunate if K-LOVE were to be replaced by LPFM stations given a sudden priority capable of supplanting this much-needed morally-lifting radio network.

Please help to support the positive values K-LOVE offers to listeners across this land by prohibiting LPFM stations from taking over their airspace.
